DETAILED ACTION

This is the third office action for U.S. Application 10/509,053 for a Support for Apparatus in General and, in Particular, for Optical or Photograph Apparatus and the Like filed on September 24, 2004.

Allowable Subject Matter

Claims 1-21 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a support with a tripod with a spider that has a seat extending through the spider, where the support has a pillar with a stem and arranged to be housed with its stem in the seat, the pillar being structurally independent of the spider and capable of being inserted removably in the seat and slidable therein, and an orientable platform with a first ball and socket joint with a ball fixed firmly to a fixing plate of the platform and a socket fixed to the stem of the pillar, with a tie rod acting between the socket and ball to prevent relative rotation when tensioned, the tie rod extending through the stem of the pillar and being operated by a knob associated with a second end of the pillar.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
